Education

University of Maryland, College Park, MD

August 2023 - Present

- Major: Computer Science
- Minor: Science, Technology, Ethics, and Policy (STEP)
- Courses: Object-Oriented Programming I, Object-Oriented Programming II, Introduction to Computer Systems, Discrete Structures, Organization of Programming Languages, Algorithms, Website Development, Compilers

Personal Projects

Interactive Events Webpage

July 2025 - August 2025

Campus Coders Crew of the University of Maryland

- Coded design in HTML, JavaScript, and CSS
- Utilized Figma to design the layout of the events page - an interactive calendar that lists events on dates. Events can be clicked to open a pop-up banner with event details
- Took in a campus club request to design a webpage and was assigned to design the events page.

Automated Slides Generator

May 2025 - July 2025

Washington Software

- Learned n8n automating software to create an automated slide creation process. The user would fill out a form connected to the OpenAI custom GPT to generate a slideshow and speaker notes.
- Utilized OpenAI's custom GPT creator to design an AI Slides Tutor. Based on the user's input of topic, background knowledge, and goals, it would generate slideshows with course content and speaker notes.

Yummy Bytes

April 2025

Bitcamp Hackathon

- Coded in HTML, JavaScript, and CSS to design the Yummy Bytes webpage.
- Implemented Google's Gemini API to create a website that generates recipes according to the user's allergies and dietary restrictions.
- Collaborated with a team to design an AI-based recipe generator website.

Work Experience

Senior Intern

May 2025 - July 2025

Washington Software

- Headed meetings and assisted interns to guide them through their individual projects.
- Worked through n8n to automate a Slides building process for the IT Slides Tutor.
- Utilized OpenAI's custom GPT builder with AI prompting to build an IT Slides Tutor.
- Worked alongside employees to build projects to create an automated course teaching source.
- Moderated the summer intern's Jira Board.

Skills

- Created websites using Carrd, Linktree, Figma, React, and VSCode
- Coded in Java, C, Assembly, HTML, JavaScript, and OCaml programming languages
- Experienced in Eclipse, VSCode, n8n, and OpenAI.
- Fluent in English, Mandarin Chinese, and basic understanding of Taiwanese
- Digitally designed promotional materials for Instagram content and posters using ibisPaint X and Canva
- Organizational, strategic, collaborative, and communicative in operational matters

Achievements

- Year 2025: Academic Honors (Dean's List) Spring 2025
- Year 2024: Nominee for UMD 2024 Office of Multi-ethnic Student Education Academy of Academic Excellence
- Year 2023: Academic Honors (Dean's List) Fall 2023, National Honors Society, Chinese Honors Society, Maryland Seal of Biliteracy, Certificate of Meritorious Service for 240+ documented SSL hours
