Education

University of Maryland, College Park, MD

August 2023 - Present

- Major: Computer Science | Minor: Science, Technology, Ethics, and Policy (STEP)
- Courses: Object-Oriented Programming I and II, Computer Systems, Discrete Structures, Organization of Programming Languages, Algorithms, Matlab, Web Application Development, Compilers, R, Python

Personal Projects

Study Puppies

December 2025 - Present

Personal Project

- Built game scenes with the Unity Universal 2D Core.
- Designed and sketched still and animated sprites for game components utilizing Aseprite Pixel Art software.

Interactive Events Webpage

July 2025 - August 2025

Campus Coders Crew of the University of Maryland

- Built a responsive events calendar using HTML, CSS, and JavaScript, allowing users to browse events by date and view details via interactive pop-up modals.
- Designed UI mockups in Figma to plan an intuitive, date-based event calendar layout.
- Translated a campus organization's requirements into a functional, user-facing events webpage.

Automated Slides Generator

May 2025 - July 2025

Washington Software

- Built an automated slideshow and speaker notes generation pipeline consisting of automation software and a custom GPT.
- Designed an AI Slides Tutor that generates learning content based on user topic, background knowledge, and learning goals.

Yummy Bytes

April 2025

Bitcamp Hackathon

- Developed a web application using HTML, CSS, and JavaScript to generate personalized recipes.
- Collaborated with a team to design and implement Google's Gemini API to tailor recipes according to the user's allergies and dietary restrictions.

Work Experience

Senior Intern

May 2025 - July 2025

Washington Software

- Led intern meetings and mentored 10 interns through individual technical projects.
- Managed the intern Jira board to track project progress and deliverables.
- Collaborated with a team of 5 employees to build an automated AI-generating course teaching platform.
- Developed an IT Slides Tutor with OpenAI's custom GPT builder and n8n automation software.

Skills

- Programming Languages: Java, C, Assembly, HTML, JavaScript, Python, and OCaml
- Tools: Visual Studio Code, React, Figma, GitHub, Eclipse, n8n, OpenAI custom GPT Builder, and Unity
- Design: Aseprite, ibisPaint X, and Canva
- Languages: English, Mandarin Chinese, and Taiwanese

Achievements

- Year 2025: Academic Honors (Dean's List) Spring 2025 and Fall 2025
- Year 2024: Nominee for UMD 2024 Office of Multi-ethnic Student Education Academy of Academic Excellence
- Year 2023: Academic Honors (Dean's List) Fall 2023, National Honors Society, Chinese Honors Society, Maryland Seal of Biliteracy, Certificate of Meritorious Service for 240+ documented SSL hours
